VBScript / Batch

ABOUT ME

Resourceful autodidact, married with two children. Passionate about leveraging AI to transform infrastructure operations. Not afraid to tackle new challenges or learn cutting-edge technologies.

Yitzhak Bohadana

VMware & Storage Administrator | AI-Powered Infrastructure

Enterprise virtualization, global storage management, and AI-driven automation specialist

AI & PROMPT ENGINEERING

AI Integration & Automation Specialist

2024 – Present

Self-directed / Applied at Cognyte

Prompt Engineering

Microsoft Copilot

OpenClaw AI Agent

ChatGPT

Claude AI

AI Automation

- Advanced prompt engineering for infrastructure automation and documentation
- Deployed AI agent (OpenClaw) for competitive intelligence monitoring and automated reporting
- Microsoft Copilot integration for day-to-day workflow optimization and PowerShell scripting
- Built AI-powered dashboards: expense tracking, competitive intel, and web scraping automation
- Designing RAG (Retrieval Augmented Generation) system over enterprise NetApp NFS storage

WORK EXPERIENCE

Global Storage & Virtualization Administrator

2022 – Present

Cognyte (CGNT) — Intelligence Analytics

- Oversee global datacenters: NetApp, HCI, Dell, VSAN across multiple sites
- Design and operate hosted private cloud infrastructures (VMware-based)
- Lead datacenter migrations between public and private clouds
- Plan and implement automation solutions with PowerShell & Python
- Ensure high availability and DR for mission-critical VMware environments

Professional Services Engineer

2016 – 2022

We-Ankor — NetApp Partner

- NetApp AFF/FAS ONTAP infrastructure: installations, migrations, upgrades
- VMware/Hyper-V environments — design, deployment, and support
- Monitoring: VRO, OnCommand Active IQ, OCI, Grafana dashboards
- SnapCenter, SnapManager, SnapProtect, SapCreator implementations

Professional Services Engineer

2013 – 2016

Harel Computers

- vSphere upgrades, SRM, Veeam backups, VDI Horizon View
- NetApp C-DOT SME, Microsoft AD/Exchange upgrades, P2V migrations

Systems Engineer

2011 – 2013

We-Ankor

- SCCM, SCOM, TMG/UAG, SQL clusters, Exchange, PowerShell automation

Virtualization/Storage & Network Manager

2010 – 2011

IDF Intelligence Base — Military Service

- VMware ESXi, IBM systems, CISCO networking, EMC VMAX/Clariion, P2V

CERTIFICATIONS

NCDA — NetApp Certified Data Admin

VCP — VMware Certified Professional

MCITP — MS Certified IT Professional

MCCA — MS Certified Cloud Admin
